**Nevada Department of Education and State Advisor Report**

State Advisor Randi Hunewill presented the NDE and State Advisor Report.

- **Department of Education** -- Nevada hit the hardest with a 41% cut in Perkins funding, sequestration was a minimal cut to CTE programs. Budget cuts will be absorbed internally and in other ways. Nevada is a good place to be with a high need to fill voids in education and healthcare.

- **Health Science and Public Safety** have completed Standards in Nurse Assisting, Sports Medicine and Health Science. End of Program tests are complete in Sports Medicine and will be given this year. Testing will also be given this spring in Workplace Readiness. Continued work on developing standards and assessments will be in biomedical.

Unfortunately there is no funding at this time for professional development. Professional development will be included during teacher inservice days.

- **Nevada DOE CTE** is not losing any positions. At this time there are no major changes in the Department of Education.

- There is not any information on state budget. Budget will be decided during current legislative sessions.

Recognition of the efforts and success of the SLC went to Danielle Tolentino Tuason, State Director, and Nicole Scott, Assistant State Officer Coach. Thanks to Luetta Mann for her work with competitive events.
