Nevada HOSA Regional Academies for Chapter Excellence TENTATIVE Agenda

This training is designed as a dedicated investment in the student leaders who are helping shape the future of Nevada HOSA. Throughout the day, chapter officers will participate in leadership development, networking opportunities, and hands-on sessions focused on building stronger, more engaged, and more successful HOSA chapters. To ensure meaningful participation and allow chapters across the state to benefit from this experience, each chapter is allotted up to 10-chapter officer attendee slots. Chapters are encouraged to select a team of officers who will actively engage in the training and bring what they learn back to their chapter. Our goal is not simply to train individual officers, but to equip chapter leadership teams with the knowledge, connections, and tools they need to strengthen HOSA in their schools and communities.
